

An experimentally-validated multi-scale materials, process and device modelling & design platform enabling non-expert access to open innovation in the Organic and Large Area Electronics Industry (MUSICODE)

Grand Agreement: 953187

Project Start Date: 01/01/2021

Project Duration: 48 months

Deliverable 7.7

Final Report on Dissemination and Communication

Date: 30-12-2024

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under the Call DT-NMBP-11-2020 "Open Innovation Platform for Materials Modelling"

Project co-funded by the European Commission within Horizon 2020 Research and Innovation Programme		
Dissemination Level		
PU	Public	x
PP	Restricted to other programme participants (including the Commission Service)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (excluding the Commission Services)	

Deliverable author(s): Evangelos Doudis, AUTH

Main Contributors: all partners

Draft Revisions: v1.0 version drafted by E. Doudis on 19/12/2024
v2.0 version finalized on 29/12/2024

1. Introduction

This deliverable outlines the contributions of the MUSICODE partners to Dissemination & Communication Activities aimed at raising project awareness and maximizing the impact of its outcomes among targeted stakeholders. These activities encompass organizing events, delivering presentations, participating in international conferences, engaging with Networks, Clusters, and Associations, and collaborating with related projects. The report also highlights the strategic use of social media, promotional videos etc to reach a wide network of stakeholders effectively.

While focusing on the Period M25-M48, this document also provides an overview of statistics, indicators, and summarized information covering dissemination and communication activities throughout the entire project duration.
