

An experimentally-validated multi-scale materials, process and device modelling & design platform enabling non-expert access to open innovation in the Organic and Large Area Electronics Industry (MUSICODE)

Grand Agreement: 953187

Project Start Date: 01/01/2021

Project Duration: 48 months

## Deliverable 9.1

### EPQ - Requirement No.1

**Date: 31-03-2021**

Horizon 2020  
European Union funding  
for Research & Innovation

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under the Call DT-NMBP-11-2020 "Open Innovation Platform for Materials Modelling"

Project co-funded by the European Commission within Horizon 2020 Research and Innovation Programme		
Dissemination Level		
PU	Public	
PP	Restricted to other programme participants (including the Commission Service)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (excluding the Commission Services)	x

## Publishable summary

Ethics is an integral part of research, Deliverable 9.1 "EPQ-Requirement No.1" identifies and deals with possible ethics issues that may arise from any part of the MUSICODE project.

The Deliverable 9.1 describes how the different partners involved in the project address issues related to the possible harm to the environment caused by the MUSICODE research, and the measures that will be taken to mitigate any potential risks related to the environmental impact. Moreover, this deliverable will describe the appropriate health and safety procedures that conform to relevant local/national guidelines/legislation and which will be followed by the staff involved in this project to ensure their health and safety during the course of the project activities.
